STATEMENT OF EXPLANATION
REVIEW SUMMARY OF SPRING 2023 TIMBER SALE BIDS AND AWARD
CONTRACTS

6.2

The LCFM, acting through the Forest and Trails Division (FT), manages the Chippewa County Forest for multiple public objectives in accordance with the Chippewa County Forest Comprehensive Land Use Plan and WI. Stats. Chapter 28. These objectives include management of the Co. Forest system for sustainable timber production, public recreation and environmental conservation.

Chippewa Co. manages the Co. Forest to optimize forest health by applying standard silvicultural treatments, that are applied to designated timber stands.

As a primary silvicultural treatment, scheduled timber harvests are routinely conducted at the timber stand level as needed to meet overall forest management objectives.

Under the process, timber stands that are scheduled for harvest are evaluated by WI DNR and FT foresters. These foresters identify the trees to be harvested and estimate the volume of the different timber types that are available for harvest within each timber stand sale tract.

Bid packages are then prepared for each timber stand sale tract and competitive bids are sought from private sector logging contractors seeking to harvest the wood products within each sale tract.

In preparing for and conducting the harvest, prescribed "best management practices" are used by the County and by logging contractors.

The County routinely plans and administers two (2) bid openings on a seasonal basis, one in the Spring and one in the Fall.

Following this process, the FT Division has now solicited and received competitive bids for the current seasonal sale, involving eleven (11) County Forest Timber Sales totaling approximately 432 acres.

To complete the competitive bid process the FT Division has compiled bids, evaluated them to assure that they are complete, and has identified the highest bidder for each timber sale tract. The LCFM Committee will review the outcome of this competitive bid process and will take action to award the timber sale contract for each sale tract.
